

LaRC SAFETY HIGHLIGHTS

April 8, 2002

FY 2002 - Civil Servants

() = Number of new occurrences

OSHA Recordable Cases = Fatalities, Lost Time, Incidents and Restricted Work Incidents
Incidents = Cases in which more than first aid treatment is required, but less than 8 hours of time is lost.
Restricted Work Incidents = Cases requiring first aid treatment, resulting in light duty restrictions.

Injury/Mishap Information

- The Center has been **70** days **without** a Civil Servant **Lost Time Injury**.
- The following first aid cases involving civil servants were reported:
 - An AAAC employee sustained a contusion to the hand while positioning an acoustic wall unit (4'x4'x8') in a tunnel test chamber. The employee's hand was caught between the wall unit and the test chamber door.
 - A SEC employee sustained a right hand laceration reaching for a piece of sheet metal.

Lessons Learned Information System (LLIS) - The new "push" feature is now operational within LLIS. This feature will push appropriate lessons learned to users based on their completed user profiles. This capability has been provided based on system user feedback, and it is anticipated that use will increase as a consequence of these system enhancements. Please take advantage of this new feature and provide feedback to Leslie Johnson, the LaRC LLIS Center Data Manager at 49409.

Weekly Video Schedule - April 8-12, 2002 - Back Safety; Electrical Safety; Safety Hazard Recognition; and Safe Handling of Hand and Power Tools.
